Wholesale and export shipments: route, packaging and transport terms are agreed separately.

Price list

Sawn timber and profiled products · 2026-11-15

Prices exclude Russian VAT. Currency: USD. Delivery is charged separately.
Converted at the Central Bank of Russia rate effective on 2026-11-14: 1 USD = 82.1516 RUB. The amount payable may be slightly higher due to bank or exchange rates. Prices are valid for 1 day from the generation date.
Sizes: 152 · Variants: 861

Timber drying and processing

These are surcharges per 1 m³ of material, not the price of a finished board or beam.
Impregnation, planing, profiling and cup cutting are carried out after drying. If no drying is selected, minimum drying to 21% is added. The total including required drying column shows the full surcharge for material at natural moisture content.

Service	Operation, USD / m³	Drying to 21%, USD / m³	Total with required drying, USD / m³
Kiln drying to 21%	85.21	Included in service	85.21
Kiln drying to 13%	97.38	Included in service	97.38
Kiln drying to 7%	109.55	Included in service	109.55
Antiseptic treatment	42.60	85.21	127.81
Fire-retardant and biological protection	42.60	85.21	127.81
Planing	60.86	85.21	146.07
Profiling	73.04	85.21	158.24
Cup cutting	85.21	85.21	170.42

Drying already included is not charged again. If drying to 13% or 7% is selected, only the processing operation is added. Drying to 21%, 13% and 7% are alternatives, not cumulative charges. Antiseptic and fire-retardant treatments are also alternative impregnation options.
Example excluding VAT: antiseptic treatment 42.60 + drying to 21% 85.21 = **127.81 USD / m³** surcharge on the material. If drying to 13% is already paid for, the antiseptic surcharge is only 42.60 USD/m³.
Finished cross-sections after planing and profiling are agreed separately. Volume calculations use the original dimensions. These surcharges are not automatically applied to finished profiled products.

Summary price list: Sawn timber

Unedged boards, slabwood and roundwood

№	Product	Wood species	Grade	Dimensions and specifications	USD / m³
1	Unedged board	Species agreed per batch	Grade 2	Width, thickness, length and batch specifications are agreed separately. No per-piece calculation is given before dimensions are agreed.	121.73
2	Unedged board	Species agreed per batch	Grade 1	Width, thickness, length and batch specifications are agreed separately. No per-piece calculation is given before dimensions are agreed.	121.73
3	Slabwood	Species agreed per batch	Agreed per batch	Width, thickness, length and batch specifications are agreed separately. No per-piece calculation is given before dimensions are agreed.	54.78
4	Roundwood	Pine	Agreed per batch	Diameter, length and batch specifications are agreed separately. No per-piece calculation is given before dimensions are agreed.	116.86
5	Roundwood	Larch	Agreed per batch	Diameter, length and batch specifications are agreed separately. No per-piece calculation is given before dimensions are agreed.	115.64

Terms and explanations

* Pieces per m³ is a theoretical reference value, not a promise to supply a fractional piece. Products are ordered as whole pieces.

Profiled product volume uses the listed thickness, width and length in metres. It is not the exact wood volume after allowing for grooves and projections. Per-piece prices are rounded to kopecks; batch prices use the rounded whole-piece price multiplied by quantity.

Prices exclude Russian VAT. Russian VAT rates of 5% and 22% are alternatives, not cumulative. Delivery is charged separately. Grade, moisture content, batch contents, finished cross-section and lead time are confirmed when ordering.
